FARM MANAGEMENT SYSTEM

PHASE 5 – PROJECT DEVELOPMENT PHASE

1. Project Description

The Farm Management System (FMS) in Salesforce is a comprehensive solution designed to digitize and streamline agricultural operations. It manages data related to crops, Farm, Farmer, and buyers, while providing insights through reports and dashboards.

2. Milestone 1 – Salesforce

Salesforce is the platform used for the project. A Developer Org is created to configure and deploy the Farm Management System.

3. Milestone 2 – Custom Objects

- Farm
- Crop
- Farmer
- Buyer

4. Milestone 3 – Tabs

- Farm tab
- Crop tab
- Farmer tab
- Buyer tab

5. Milestone 4 – Lightning App

A Farm Management System Lightning App is created with Farm, Crop, Farmer, Buyer, Reports, and Dashboards.

6. Milestone 5 – Fields and Relationships

- Farm fields: Farm Type, Soil Quality, Irrigation Type, Location, Size, and Master-Detail relationship with Farmer.
- Crop fields: Crop Name, Planting Date, Harvest Date, Lookup relationship to Farm, Actual Yield, Total Acres Harvested, and Expected Yield per Acre formula.
- Farmer fields: Contact Number, State, District, Village, with State controlling District field dependency.
- Buyer fields: Contact, Email, Address, Buyer Type.

7. Milestone 6 – Profiles

- Sales Department custom profile
- Farm Manager custom profile

8. Milestone 7 – Roles

A Farm Manager role is created under the CEO in the role hierarchy.

9. Milestone 8 – Users

- Farm Manager user with Farm Manager role, Standard Platform User license, and Farm Manager profile.
- Sales Department user with Sales Manager profile.

10. Milestone 9 – Sharing Rules

- Owner-based Sharing Rules
- Criteria-based Sharing Rules
- Crop records shared with Farm Manager using Read/Write access
- Buyer records shared with Sales Department using Read/Write access

11. Milestone 10 – User Adoption

A Farmer record is created through the Farm Management application.

12. Milestone 11 – Reports

- Farmer with Farms report
- Report using Crops and Buyers objects

13. Milestone 12 – Dashboard

A Farmers with Farms dashboard is created using a Gauge chart.

14. Milestone 13 – View Report and Dashboard

- Open Farm Management System from App Launcher and view the Reports tab.
- Open the Dashboard tab and view Farmers With farms.
